

# REMOTE MEDICAL SERVICES

The Right Care at  
the Right Time

## Remote Medical Services Program - 2014 Physician and Paramedic Services

### The Issue

Working in the resource exploration industry can be a dangerous occupation and proactive organizations are continually looking for ways to improve the health and safety of their employees. Of specific concern is how to cost-effectively deliver care to employees working in remote locations.

### Solution

Iridia offers a full range of remote medical services to meet our client's needs from Primary Care Paramedics (PCP/EMT) to Advanced Care Paramedics (ACP/EMT-P) to Physicians in and out of camp.

### Our Team

- + 15 Emergency Trained Physicians
- + 50 ACP/EMTs
- + 50 PCP/EMTs
- Ft. St. John office
  - Operational support
- Vancouver office
  - Strategic & administrative support

### The Iridia Difference

#### Medical Oversight

- Unique in the industry, we have dedicated physicians available 24/7 with a target response time of 3 minutes

#### Equipment/Medication

- Stocked beyond the current standards for equipment/medications
  - Eg: 12 lead monitors, automated suction, AEDs, pain management medications, over-the-counter medications
- Fleet of 4x4 ambulances
- Fleet of 4x4 MTCs
- Satellite/cell phones

#### Value adds

- Flu clinics
- Wellness programs
- On-site drug and alcohol testing
- Connections with the provincial health authorities
- Physicians supporting the community
- A dedicated electronic medical record system
- Annual reports
- Member of ISNetworld
